INTRODUCTION.

CITY CLERK'S OFFICE,

FITCHBURG, MASS., August 31, 1898.

This volume contains an exact transcript of the Old Records of the Town of Fitchburgh for the first twenty-five years. It begins with the act of incorporation, February 3, 1764, and extends to March 2, 1789.

The printer's copy has been carefully prepared by Mrs. Fannie B. Davis, Miss Edith L. Davis and Miss Lucy A. Hayward. The manuscript being old and discolored, and written by so many different clerks, the task of copying it is not the easiest thing imaginable.

To give our readers an idea of the original book, I had Mr. J. C. Moulton photograph some of the pages, from which plates were made by the Heliotype Engraving Company of Boston, Mass.

I am also very much indebted to Mr. J. F. D. Garfield, Secretary of the Fitchburg Historical Society, for many suggestions and much valuable assistance. He furnished the pictures of Thomas Cowdin and wife, and Joseph Fox, whose likenesses appear in the book. It was thought that, as Mr. Cowdin and Mr. Fox were such prominent men in the early town affairs, it would be very proper that their pictures should appear in this volume. An attempt was made by Mr. Garfield to obtain from the Massachusetts Archives in the State House, Boston, copies of the petitions referred to in Article 2, Page (277); Articles 6, 7 and 8, Page (285), and Articles 10 and 11, Page (287), under date of October 3, 1786. This he was unable to do, but he did discover some interesting petitions which he copied, and they are reproduced as an appendix in this book.

The work of printing the book has been executed by the Sentinel Printing Company of this city, with commendable zeal and care. The excellent typographical appearance of these pages is due to the skill and painstaking efforts of the members of this printing establishment, who have suggested freely of their knowledge during the progress of the work. The index has been prepared under the immediate supervision of Frank C. Hoyt, foreman in the printing office, to whom I am indebted for many valuable suggestions.

The figures at the top of the pages indicate the paging of the transcript. The heavy figures enclosed in brackets represent the paging of the original book.

It is hoped that a perusal of the book will prove interesting, not alone to students of history, but to all persons who may wish to acquaint themselves with the conditions and misfortunes which surrounded our ancestors just previous to and following the Revolutionary war.

I, WALTER A. DAVIS, City Clerk of the City of Fitchburg, hereby certify that the following, beginning with page 5, and ending with page 324, is a true and correct copy of so much of the Old Records of the Town of Fitchburgh as are contained in Volume 1, from February 3, 1764, to March 2, 1789, except that the title, paging, explanatory marks and notes have been added in the present volume.

by Adjournment from the first Instant the Committee reported as followeth
 Having with great Satisfaction perused the circular Letters from the Committee
 of Correspondence for the Town of Boston wherein are so clearly set forth our
 Rights & Privileges as English-men & Christians and also a List of the many
 Infringements that have been made Thereon which Letters of Correspondence
 we highly approve of & unanimously consent unto and resolved to stand fast in the Liberty
 and Rights where with our gracious Sovereign Kings have made us free by an undeni-
 able Charter & Decree from them their Heirs & Successors for ever - And we are
 fully persuaded that Liberty is a most precious Gift of God our Creator to all
 Mankind and is of such a Nature, that no Person or community can justly part
 with it, and consequently no Man or Number of Men can have a Right to exercise
 Despotism or Tyranny over their Fellow Creatures; and to save us from such extreme
 Wretchedness we believe the Vigilance & combined Endeavour of this People are necessary
 and we hope through the favour of divine Providence will be Effectual; And we think
 it our indispensable Duty as Men, English-men and Christians to make the most
 publick Declaration in our Power on the side of Liberty we have inclined our Ambition
 to be known to the World and to posterity as Friends to Liberty, and we think it
 our Duty on this Occasion in behalf of ourselves and our dear Country to
 express our unfeigned Gratitude to the Respectable Gentlemen of the Town of
 Boston for the Light & Counsel that they have presented to us in their
 Circular Letters & their many generous Efforts in the Defence of our
 Privileges in the Cause of Liberty & in our earnest Prayers to Almighty
 God that they may be animated still to proceed & prosper in such a
 Noble & Generous Design & finally may they receive the most ample &
 durable Reward - And that these Resolves be recorded in our Town
 Book of Records, & that the Town Clerk Give an attested Copy to the
 Committee to be communicated to the Committee of Correspondence for the Town of
 Boston

And with Respect to the East India Tea - For as much as we are
 now informed that the Town of Boston & the Neighbouring Towns have made
 such Noble Opposition to d Tea being brought into Boston Subject to a
 Duty so directly tending to the Enslaving of American It is our Opinion
 that your Opposition is just & equitable and the people of this Town are
 ready to afford all Assistance in their power to keep off all such Infringements

desire to use all proper Means in our contracted sphere to promote it And we
 are necessitated to view the Enemies of Liberty, as Enemies of our best friend
 Sovereign King George & his Plebeian Family, because Tyranny & Slavery
 are fundamentally repugnant to the British Constitution; But in clearing
 our present Thoughts & Resolutions, we are moved by a principle of Humanity
 & Benevolence to the People of Britain, whose Happiness is so involved with
 ours, that the Oppressions and Depredations inflicted on us by Tyrannical
 Government, must be essentially detrimental to them we therefore

When in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another and to assume among the Powers of the earth, the separate and equal Station to which the laws of nature and of nature's God entitle them, a tacit respect to the Opinions of mankind requires that they should declare the Causes which impel them to the separation, we hold these truths to be self evident that all men are created equal that they are endowed by their Creator with certain unalienable rights, that among these are life, liberty and the pursuit of Happiness: That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed, that whenever any form of Government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and to institute new Government, laying its foundation on such principles, and Organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness, prudence, indeed, will dictate that governments long established should not be changed for light and transient causes; and accordingly all Experience hath shewn that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed, but when a long train of Abuses and Usurpations, pursuing invariably the same Object, evinces a design to reduce them under absolute Despotism, it is their right, it is their Duty, to throw off such Government and to provide new guards for their future Security such has been the patient Sufferance of these Colonies; and such is now the Necessity which constrains them to alter their former Systems of Government, the History of the present King of Great-Britain is a History of Repeated injuries and — Usurpations, all having in direct Object the Establishment of an absolute tyranny over these States. to prove this let facts be submitted to a candid world.

A Declaration by the Representatives

of the United States of America

In General Congress Assembled

When in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another and to assume among the Powers of the earth, the Seperate and equal Station to which the laws of nature and of nature's God entitles them, a decent respect to the Opinions of mankind requires that they should declare the Causes which impel them to the separation, we hold these truths to be Self evident that all men are created equal that they are endowed by their Creator with certain unalienable rights, that among these are life, Liberty and the pursuit of Happiness:—That to secure these rights, governments are instituted among men, deriving their Just powers from the consent of the Governed, that whenever any form of Government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and to institute new Government, laying its foundation on such principles, and Organizing its powers in such form, as to them shall seem most likely to Effect their Safty and Happiness, prudence, indeed, will dictate that governments long Established should not be changed for light and transient causes; and accordingly all Experience hath Shewn, that mankind are more dis-

posed to Suffer, while Evils are Sufferable, than to right themselves by abolishing the forms to which they are accustomed, but when a long train of Abuses and Ufurpations, pursuing invariably the same Object, Evinces a design to reduce them under absolute Dispotism, it is their right, it is their Duty to throw off such Government and to provide new gards for their future Security such has ben the patient Sufferance of these Colonies; and such is now the Necessity which constrains them to alter their former Systems of Government, the History of the present King of Great-Briton is a History of Repeated injuries and Ufurpations, all having in direct Object the Establishment of an absolute tyranny over these States. to prove this let facts be submitted to a candid world.

[120] He has refused his assent to Laws, the most wholesome and necessary for the publick good . . .

He has forbidden his Governors to pass Laws of immediate and pressing importance, unless Suspended in their Operation untill his Assent should be Obtained and when so Suspended, he has utterly neglected to attend to them

He has refused to pass other Laws for the accommodation of Large districts of people, unless those people would relinquish the right of representation in the Legislature, a right inestimable to them and formidable to Tyrants only. . . .

He has called together legislative bodies at places unusual, uncomfortable and distant from the depository of their publick records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved Representative Houses repeatedly for opposing with manly Firmness his Invasions on the rights of the people.

He has refused for a long time, after such Dissolutions, to cause others to be elected; whereby the Legislative Powers, incapable of annihilation, have returned to the people at Large for their Exercise; the State remaining in the mean time exposed to all the dangers of Invasion from with out and Convulsions within. . . .

He has endeavoured to prevent the population of these States; for that purpose obstructing the Laws for Natu-

ralization of Foreigners; refusing to pass others to encourage their migrations hither and raising the Conditions of new appropriations of Lands.

He has Obstructed the Administration of Justice, by refusing his assent to Laws for Establishing Judiciary powers.

He has made Judges dependant on his will alone, for the tenure of their Offices, and the amount and payment of their Salaries. He has erected a multitude of new Officers, and sent hither swarms of Officers to Harrahs our people, and Eat out their Substance.

He has kept among us, in times of peace Standing Armies without the Consent of our Legislatures. . . .

He has affected to render the Military independent of, and Superiour to the Civil Power.

He has combined with others to Subject us to a Jurisdiction foreign to our Constitution, and unacknowledged by our Laws; giving his Assent to their acts of pretended Legislation:

For quartering large bodies of armed troops among us:

For protecting them, by a mock trial from punishment for any murders which they should commit on the inhabitants of these States:

For cutting off our trade with all parts of the world:

For imposing Taxes on us without our consent:

For depriving us in many cases of the benefits of Trial by Jury: For transporting us beyond Seas to be tried for pretended Offences:

For abolishing the free System of English Laws in a Neighbouring province Establishing therein an arbitrary Government and enlarging its boundaries, so as to render it at once an Example and fit Instrument for [121] For introducing the same absolute Rule into these Colonies.

For taking away our Charters abolishing our most valuable Laws and altering fundamentally the forms of our Governments:

For Suspending our own Legislatures and declaring themselves invested with power to Legislate for us in all Cases whatsoever.

He has abdicated Government here, by declaring us out of his protection and waging war against us.

He has plundered our Seas ravaged our Coasts, burnt our Towns, and destroyed the Lives of our people.

He is at this time transporting large armies of foreign mercenaries to compleat the works of Death Defolation and tyranny already begun with circumstances of Cruelty and Perfidy Scarcely paralleled in the most barbarous Ages, and totally unworthy the Head of a Civilized nation.

He has constrained our Fellow Citizens, taken captives on the high Seas to bear arms against their Country; to become the Executioners of their friends and brethren, or to fall themselves by their hands.

He has excited domestic insurrections amongst us, and has Endeavoured to bring on the Inhabitants of our Frontiers the merciless Indian Savages, whose known Rule of warfare is an undistinguished Destruction of all Ages, Sexes, and Conditions.

In every stage of these oppressions we have petitioned for redress, in the most humble terms: our repeated petitions have been answered only by repeated Injury!—A prince whose Character is thus marked by every act which may define a Tyrant, is unfit to be the Ruler of a free people! . . .

Nor have we been wanting in attention to our British Brethren, we have warned them from time to time of attempts by their Legislature to extend an unwarrantable Jurisdiction over us, we have reminded them of the Circumstances of our Emigration and Settlement here, we have appealed to their native Justice and Magnanimity and we have conjured them by the ties of our common kindred to disavow these Usurpations, which would inevitably interrupt our connexions and Correspondence. they too have been deaf to the voice of Justice and of Consanguinity. we must, therefore Acquiesce in the necessity which Denounces our Separation, and hold them, as we hold the rest of mankind Enemies in war; in peace, Friends.

We, therefore, the Representatives of the United States of America, in General Congress Assembled appealing to

connexion. between them and the State of Great-Britain, is, and ought to be totally dissolved; and that as free and Independent States, they have full power to Levy war, conclude peace, contract Alliances, Establish commerce, and to do all other acts and things which Independent States may of right do, and for the Support of this declaration with a firm reliance on the protection of divine providence, we mutually pledge to each other our Lives our Fortunes and our Sacred Honor.

The petition of Abijah Holbrook in the Name and Behalf of Silas Pratt of Fitchburgh in the County of Worcester in the s^d Commonwealth

To the Hon^{ble} the Senate & House of Representatives in General Court assembled Sept. 1782

The Petition of Thomas Cowdin in behalf of the Town of Fitchburg Humbly sheweth that the Number of Men for the Continental Army by the last Requisition was four Men for the s^d Town accordingly they have raised three able Men & sent forward to said Army—& suppose that three Men is the full Proportion for said Town according to the Neighboring Towns. And as said Town is ready at all Times to do their full proportion & are greatly Burdened with Bridges & Bad Roads Wherefore your Petitioner humbly prays that this Hon^{ble} Court would remit to the Town of Fitchburgh afores^d the Fine that is already laid on s^d Town for not raising the 4th Man according to the said last Requisition And as in duty bound shall ever pray
